

The Calgary Food Bank

2018 Giving Summary

The Calgary Food Bank is a charitable, nonprofit organization dedicated to gathering and distributing quality emergency food to those in need. Link Energy began replacing the food banks' lighting with LED bulbs in 2017, fully completing the project in June of 2018.

Our Impact

1,130,859 kWh
Energy use reduced

The amount of energy that will be reduced over the lifespan thanks to the transition to certified LED light bulbs.

\$133,224
Energy cost saved

An estimated total in energy cost savings over the lifespan of the certified LED light bulbs, including maintenance savings.

21,811
Equivalent trees planted

A representation of the amount of carbon emissions that were avoided. Sadly, we do not physically plant the trees (yet).

Message from the CEO

"What if business was a force for good? That is our dream and we are humbled that so many people seem to share it. It is such a privilege to work with these organizations, as I know first hand the difference they make for so many. We are looking forward to working with many more great nonprofits in 2019 and beyond!" - Wayne Burke
