

2020 GIVING SUMMARY

Hull Services

OUR IMPACT:

Total Cost Saved

\$894,032

Energy Use Reduced

6,500,128 kWh

Equiv. Trees Planted

75,993

Lightbulbs Donated

2,626

LINK ENERGY

September 10th, 2020

Partnering with young children and families, Hull Services is a leader in children's mental health. "Our vision is that young people and families would live in communities that support their mental wellbeing, and so of course we have a mental health focus to the work that we do," said Julie Kerr, Hull Services Executive Director.

Why donate lightbulbs?

By donating and installing LED lightbulbs instead of just giving cash, we're able to spend \$1 and save Hull Services on average \$10, resulting in a longer lasting and more significant impact on Hull's operational budget. Additional benefits are that LED lightbulbs use roughly 25-80% less energy than traditional incandescent lightbulbs and are more environmentally friendly. This allows us to lower both their carbon footprint and energy use in the process.

By supporting Hull Services, you are making a direct impact in the lives of people. In 2019 alone, Hull Services served 4,027 young people and families. Link Energy is proud to have been able to give back to such an important nonprofit organization like Hull Services!
